Sustainable investment labels help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label because whilst sustainability is integrated in the investment process, the Fund does not currently have a specific sustainability goal.

#### **Sustainability Approach**

The Unicorn UK Smaller Companies Fund aims to achieve long term capital growth by investing primarily in UK companies included within the UK Numis Smaller Companies plus AIM Index. UK companies are defined as those which are incorporated or domiciled in the UK, or have a significant part of their operations in the UK.

The Fund applies the firmwide Environmental, Social, Governance ("ESG") evaluation and assessment of stocks selection (the Core Unicorn Investment Process), which is integrated throughout the investment process.

- Evaluate: robust analysis of all financially relevant and material ESG data (quantitative and qualitative), on an individual company basis
- Engage: active engagement including regular meetings with senior management, site visits, and active voting. Unicorn benefits from strong corporate access enabling ongoing dialogue with investee companies
